

POP AND LEARN! Bubble Boards™

Alphabet Arc Activity Sheet JL681

Alphabet Song

Sing the alphabet song as you pop down each letter. How many letters in the alphabet? Turn the arc over and practice with the capital letters by popping each letter.

Find the Vowels

Pop down the red vowels. What sound does each one make? What order do they go in? Can you think of any words that start with or contain that vowel sound?

What's My Letter?

Player One chooses a letter and the Player Two creates yes/no questions to try to guess it. Player Two can pop down any letters that the mystery letter can be to help with questioning. Is it a vowel? Is it in the first half of the alphabet? Is it a descender?

Eye Spy

Play eye spy with an object that starts with a particular letter. Once it has been guessed correctly, pop down that letter and continue with other letters of the alphabet, popping as you go.

Alphabet Blindfold

Blindfold a player and get them to pop a letter on the arc. Can they guess what letter it was?

What comes after K?

Before and After

Pop some random letters on the arc. Ask students to name the letter that comes next? What letter comes before? Continue until all letters are popped.
